NEW YORK CITY, NY | April, 2015 | Case Funding Inc. recently announced the sale of substantially all of its assets to Javlin Capital, a specialty finance company based in Omaha, Nebraska.

“Leveraging Javlin’s ready capital enables us to offer a broader range of law firm loan products as well as larger loan sizes, giving us the ability to serve law firms of virtually any size,” said Richard Silverstein, Case Funding’s President and Managing Director at Javlin.

The strategic acquisition targets the growing need to help contingency fee-based law firms pay for case costs, general operating expenses, and marketing and business development campaigns associated with personal injury and class action cases as well as mass torts like the Engel Tobacco case (in Florida) and the British Petroleum (BP) oil spill.

“Case Funding is arguably the strongest and best-networked firm in the litigation finance space,” said Rob Johnson, Javlin’s CEO. “Combining Case’s expertise in providing law firm financing with Javlin’s ability to provide capital will greatly expand financing options for law firms.”
